

## Siena Slate LEED Information

### LEED CERTIFICATION: TECHNICAL STATEMENT

This document verifies that the Siena Slate product enables project teams to earn credits for the LEED® Certification of Commercial New Construction (NC), Commercial Interiors (CI), and Existing Buildings (EB). Siena Slate is made from real stone or natural slate, cork, and FSC Certified HDF –finished with a zero-VOC water-based polyurethane coating. This unique combination of 100% sustainable materials makes for a remarkable and original flooring product.

LEED System(s)	Applicable Credit	LEED Point Value
NC, CI	MR 6, Rapidly Renewable Materials	1
NC, CI	MR 7, Certified Wood	1
NC, CI	EQ 4.3, Low-Emitting Flooring Systems	1
EB	MR 3, Alternative Materials	1

- Cork accounts for 24% of the product. Therefore 24% of the cost of this product can be applied to your MR6 calculations.
- FSC Certified HDF accounts for 62% of the product. Therefore, 62% of the cost of this product can be applied to your MR7 calculations. Please see the following page for FSC Certificate/COC.
- Because of the sustainable qualities inherent in this product, if you are working on a major renovation project for an existing building then using this product can help you comply with Materials and Resources Credit 3: Sustainable Purchasing – Facilities Alterations and Additions (LEED EBOM).
